Dear Arnold

REPORT ON MAINTENANCE OF AFRICARTS

It may appear as if I have delayed to report to you on the performance of the Africarts after maintenance. What I really wanted was first to observe and assess the maintained carts so that my report to you is based on the actual performance of the carts.

Indeed since the Africarts were maintained by Mr. Hastings Mkandawire by fitting 12mm gauge spokes and shortening of handles, we have met with great success. No cart has broken down. What a record! It appears the 12mm gauge spokes are ideal and strong enough to withstand the cart load.

The Africarts are indeed ideal for municipal garbage collection. They are particularly liked by women because they are light and easy to push. It is with this in mind that the Mzuzu City Assembly is further requesting you to donate additional carts for the benefit of women and the general public.

Looking forward to a timely response.

Yours faithfully

A. P. KAYUNI

FOR: CHIEF EXECUTIVE

Cc: Mr. Hastings Mkandawire
