Dear Arnold

USE OF THE DONATED SIX AFRICARTS

It is with great pleasure that I enclose here in three photographs of Africarts being used by employees of the Mzuzu City Assembly including women in the collection of municipal garbage.

Our observation about the performance of the Africarts are that they are indeed very ideal for garbage collection. They are light and easy to push even when full with garbage and very ideal for use by women. They move faster than ordinary steel wheelbarrows and carry more garbage than the steel wheelbarrows.

The Assembly is very satisfied with the performance of the carts and intends to purchase some from Mr. Mkandawire.

Once again I thank you very much for your good gesture.

Yours faithfully

A. P. KAYUNI
FOR: CHIEF EXECUTIVE
