Arnold Wendroff and Joyce Jed  
544 8<sup>th</sup> St.  
Brooklyn, NY 11215

Dear Joyce and Arnie,

I'm sorry I'm so late in thanking you for your contributions to our transport ease.

The AfriCart has been very useful for the Natural Resources Crew, especially at the Propagation Area where it is used to schlep potted plants, soil, and chips around. It's more stable and holds more than a regular wheelbarrow. It's also been interesting for us to learn about your Malawi project and feel a little bit of connection with something that's happening far away.

The wheelbarrow was snatched up by the Turf Crew for use in maintaining the ballfields. We were very impressed by the price, and we'll put it to the test!

Thanks so much for thinking of us.

Sincerely,

Anne P. Wong  
Director of Landscape Management
